

UW Medicine
UNIVERSITY of WASHINGTON

¹Obstetrics & Gynecology, University of Washington, Seattle, WA, ²Department of Statistics, University of Washington, Seattle, WA

I thank Dr. Kristina Adams Waldorf for her mentorship and scientific guidance, and John Cornelius for bioinformatics support and expertise. I also thank the Adams Waldorf Lab and UW Medicine Department of Obstetrics and Gynecology for providing sample data. Computational resources are provided by UW Research Computing (Hyak/Tillicum HPC cluster).
